

KAREEM OSAMA MOHAMED ABOZAID

Computer Science & AI Student · Machine Intelligence Track

kareemososok@gmail.com · +20 120 599 9903 · Faculty of Computers & Artificial Intelligence

PROFILE

4th-year Computer Science & Artificial Intelligence student specializing in Machine Intelligence. Builds full data pipelines — cleaning and exploring raw datasets, training models that generalize, and packaging results into dashboards and tools people actually use. Comfortable across data science, machine learning and generative AI.

PROJECTS

AI Resume Screening System

Python · NLP · Scikit-learn · Pandas

NLP pipeline that parses resumes, extracts structured features, and ranks applicants against a job description.

Customer Churn Prediction

Python · Machine Learning · Power BI

Classification model flagging at-risk customers, paired with a retention dashboard.

Sales Demand Forecasting Dashboard

SQL · Power BI · Time Series

Time-series forecasting model feeding an interactive dashboard for demand by region and product line.

Sentiment Analysis Engine

Python · NLP · Deep Learning

Bilingual (Arabic/English) sentiment classifier benchmarking classical ML against a fine-tuned transformer.

AI Study Assistant

Generative AI · Python · Prompt Engineering

RAG-based assistant answering questions from course material, grounded in retrieved documents.

Exploratory Data Analysis Toolkit

Python · Pandas · Dashboarding

Reusable EDA + reporting pipeline that profiles any dataset into a shareable insights dashboard.

SKILLS

Languages & Tools Python, SQL, Git & GitHub, Excel

Machine Learning & AI Machine Learning, Deep Learning, NLP, Generative AI

Data & Visualization Power BI, Dashboarding, Pandas / NumPy, Data Analysis

EDUCATION

B.Sc. Computer Science & Artificial Intelligence — Machine Intelligence Track

Faculty of Computers & Artificial Intelligence · 4th Year

Relevant coursework: Data Science, Artificial Intelligence, Data Analysis
